---

Good afternoon, Cindy. I received your WRF and will review it shortly. I'm sorry for the late response as I was tied up in meetings all day long. I will review what we have and get back with you regarding questions, etc.

Thank you.

Cynthia -

Attached is your original spreadsheet with a new page titled ADDRESS FILE. I did a "distinct" query and found that there were 135 individual Transporter IDs.

The last one in the list is 88888. This number is one that we use to input a record where the transporter is unknown or refuses to register with us. You may have to go back to the manifest itself to find the actual name of the transporter.

If you need more information, please let me know.

Thanks

Duh, I didn't notice that. I will start working on them.

Thanks

Wow, well if that's the case we will need it for all transporters. Do forget that there are tabs for each year from 2003 through 2010. Can you do that?

Thanks

I can use the excell spread sheets to get the information. Is this the only one or there others? If there are, go ahead and send them to me and I will start working on them. It will be just as easy to pull the information on all of them as it is to find only 50.

Thanks

Carol, what I have is the STEERS reports from 2003 through 2010. We are currently working to sort the information by year and by TX Transporter ID. At that point we will want to take the companies who were the highest

contributors and send them a Notice letter.

Would it work for you, if after we do the sort, I send you the information

and have you or someone on your staff provide the names and addresses of the transporter? It may be as many as 50 companies that we want to send letters to.

I am attaching the STEERS reports that I have so you can see what was provided to EPA.

Thanks for your assistance in furthering this enforcement effort.
